424 S Pine Street (currently no AW)

Nate,

Please see attached SW checklist and SW related to the 10/2023 School Street murder. Sounds like you and Chris may have received some info on this one late last week.

Resident & suspect Manuel Ojeda born 2005 has crim history involving:

- 311.11PC case sent for referral in 2019 (dismissed)
- 6/18/2023 arrest for 182(a)(1) PC, 243(d) PC & 245(a)(4) PC (suspended/not dismissed)
    - He took a 2 x 4 to someone and his partner, also arrested, pistol whipped someone.

Resident & Manuel's little brother, Julian born 2007, no criminal history.

Resident and their dad, Manuel Jaramillo Sevilla born 1975, has:

- 12500 VC in 2008
- 273d PC arrest in 2014 (dismissed)
- DV related arrest in 2015 for 136.1PC, 243(e)(1)PC, 273(a)PC, 69 PC & 148(a)(1) PC.
    - All charges dismissed except for the 69 PC - felony (convicted and later expunged in 2019)

Manuel likely at least present for the murder/likely driver as well, but not enough for AW yet and can't be ruled out.

Firearm for the murder has been recovered, his partner's firearm from the June 2023 case still outstanding.

I am comfortable with a unit level service on this one but wanted to consult first based

on 3 matrix boxes (10, 13 & 14) being applicable here.

We will serve this early Thursday morning if SWAT does not serve, so an answer today would be very helpful for planning purposes.

Thanks,

Danny
